Program

Tuesday, 17 April 2018
Park Inn Liege Airport

Innov'action Aerospace 4.0 : a cross border event

This Aviation Day is an application-oriented and technology-focused event for professionals only. The objective is stimulating B2B-collaboration across borders between technologically innovative companies and/or research centers.

In the morning, OEM's (Original Equipment Manufacturer) will describe their experiences, needs and expectations regarding SME's related to production processes, MRO technology and digital solutions.

In the afternoon, with your registered profile you can participate to multiple matchmakings and technical sessions.

Your added-value to participate is to meet **OEM's**, to have **reflections** about « smart » manufacturing/ maintenance and how to get in, to have a **global vision** on OEM's strategy, to discover state of the art **4.0 technologies** and make **contacts**.

This event is organized in partnership with the development agencies of the *Innovation2Market* project (Interreg-V) and euregional aviation clusters.

We look forward to your visit!

HYPEREGIO – I2M

Find your Perfect Match!

Do you have a particular "close-to-the-market" innovation and are you looking for complementary cross-border business partners to realize marketable solutions?

HYPEREGIO – Innovation2Market supports you in boosting your mature innovation (TRL 5-8), which is still in a pre-competitive stage!

Join our interdisciplinary application- and B2B-oriented **euregional events and matchmakings**

Benefit from the support of our **BDS-managers**, connecting you to other SMEs and – if needed – major enterprises or knowledge institutions

Receive your B2B-innovation voucher: Each starting cross-border SME-based R&D consortium is supported by a free **€ 6,000 grant** to develop its innovation

And benefit from our **assistance in finding** suitable **European and regional fundings** to realize your joint innovation project
