

ESENTA

smart living
starts at your door

technology has made
many aspects of our lives
easier

why hasn't your door caught up ?

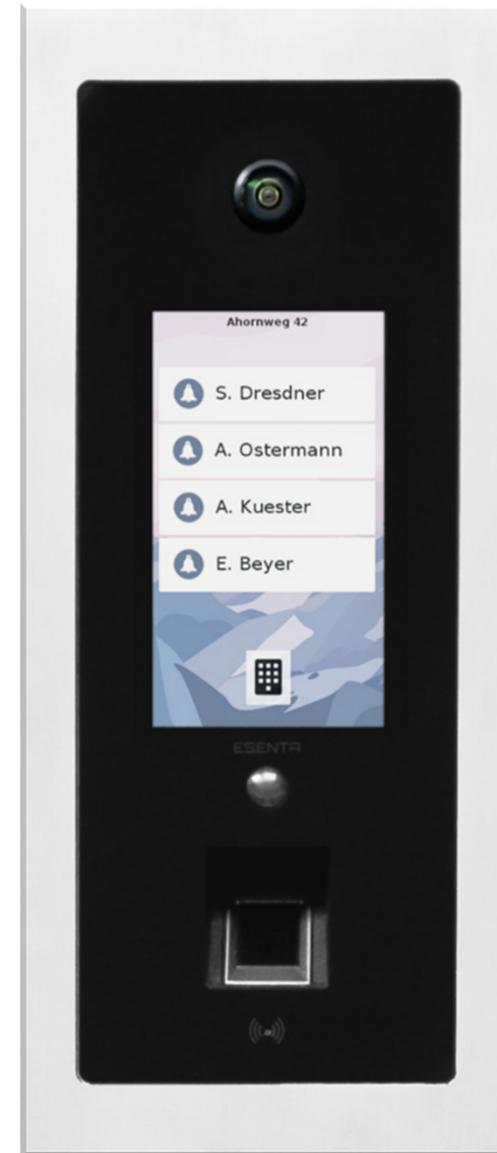

- + most doorbells as functional as the were a hundred years ago
- + and they are difficult to maintain, especially in apartment buildings

ESENTA

puts the ability to control your entrance remotely into the palm of your hand

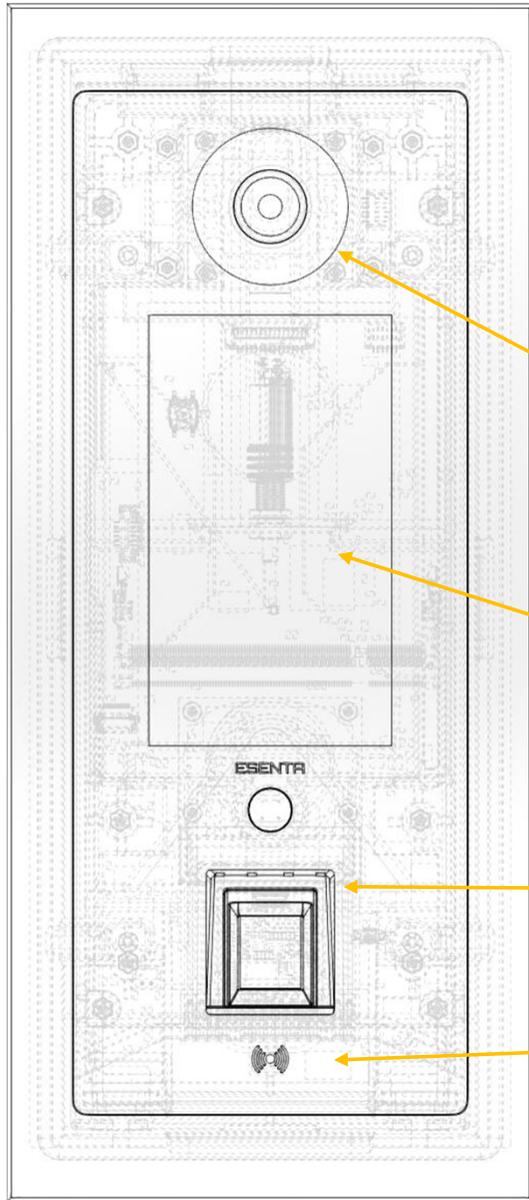

always be there
for your visitors

- + see and talk to the person at your door wherever you are
- + if you like, you can let them in at the touch of a button
- + increased security thanks to wide angle hd camera

never lock yourself
out and keep access
under control

- + replace your key with a wide selection of authentication methods
- + admit access to third parties at scheduled times and get notified when the door is opened

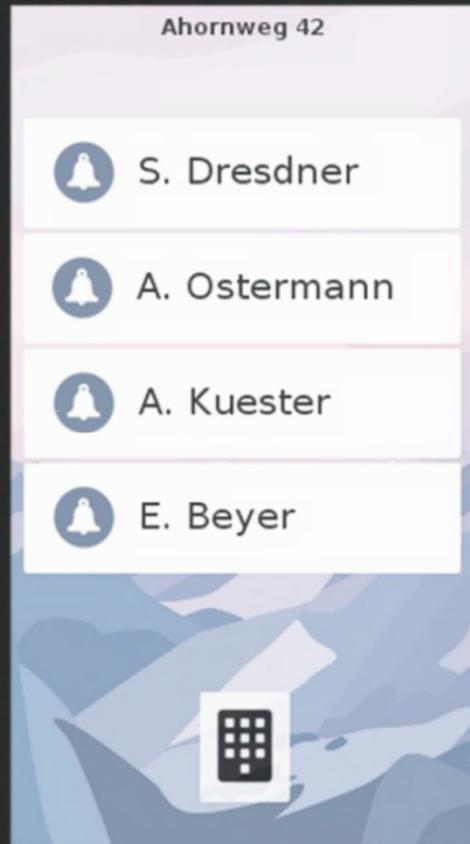

always securely
authenticated

**single or multi factor authentication
via:**

- + QR Code
- + entering a Pin code
- + Fingerprint
- + NFC on your phone or card
- + Bluetooth

easily configure and
take control

- + easily configure a variable number of nameplates
- + administer access from your tablet, smartphone or desktop pc

integration into home automation

- + integrate Esenta into your smart home via open standards
- + benefit from cooperation of your smart device, e.g. open the garage door for the postman or automate your lighting

Esenta

the digital butler at your
doorstep

Unlocking the door to becoming a smart platform

- + voice control
- + image recognition
- + addons: time-tracking, guest access, ...

Progress to date

Where are we now ?

2016

- Founded
- Initial prototypes

2017

- Product development finished
- First showcase at trade show

2018

- Regulatory testing passed (CE)
- Preparation for volume production
- Beta phase starting July

What are we
looking for?

- + additional sales channels
- + product feedback
- + new team members

**thank you
and we hope to talk to you soon !**

Business
